

## HOW DO I RESPOND TO CONFLICT? Dynamic Negotiating Approach Diagnostic (DYNAD)

**INSTRUCTIONS:** Consider your response in situations where your wishes differ from those of another person. Note that statements A-J deal with your *initial* response to disagreement; statements K-T deal with your response *after the disagreement has gotten stronger*. If you find it easier, you may choose one particular conflict setting and use it as background for all the questions. Note that there are no “right” or “wrong” answers; your first impression is usually best.

Circle one number on the line below each statement for questions A through T.

### SCORING THE INSTRUMENT:

When you are finished, transfer the number from each item on the tally sheet. For example, on item A, if you selected number 6, write “6” on the line designated for item A on the tally sheet. Then add the numbers.

SAMPLE: B 1 + H 4 = 5.

### INTERPRETATION OF THE INSTRUMENT:

1. This instrument gives you two sets of scores. Calm scores apply to your response to conflict when disagreement first arises. Storm scores apply to your response if things are not easily resolved and emotions and feelings of conflict get stronger.
2. The scores indicate your *preference*, or inclination to use each style. The higher your score in a given style, the more likely you are to use this style in responding to conflict. You can develop skills in the appropriate use of each conflict management style and, as such, are not limited to using the style(s) that you prefer.
